

Submission ID	Submission Title	Modalidad de presentación	Recinto/ Pantalla	Horario	Día	Investigación...
696	Modulatory Effects of Cyanidin-3-glucoside on Urate Crystal-Induced Inflammation in an In Vitro Gout Model	Poster	3	11:00 - 11:10	Miércoles 19	Básica
542	Evaluation of the effect of (-)-Epicatechin on the Wnt/ β -Catenin pathway in the fibrosis of the murine model with muscular dystrophy	Poster	3	11:00 - 11:10	Jueves 20	Básica
659	Exploring Collagen–Nanocellulose Hydrogels as Scaffolds: A Mechanical and Biocompatibility Approach for Cartilage Repair	Poster	7	11:00 - 11:10	Jueves 20	Básica
424	The Role of Polyamines in SCA7	Poster	11	11:00 - 11:10	Miércoles 19	Básica
584	Polarization toward Th1 or Th2 immune responses regulates cutaneous re-epithelialization in a murine model of burns	Oral	Temazcal 3-4	11:00 - 11:15	MIERCOLES 19	Básica
773	Activación y aceleración del cierre de herida en el dígito amputado del ratón por un coctel de componentes bioactivos	Oral	Aula 1 enseñanza	11:00 - 11:15	MIERCOLES 19	Básica
438	Epigenetic regulation of proinflammatory markers in a glial cell model of spinocerebellar ataxia type 7	Oral	Nanahuatzin	11:00 - 11:15	Jueves 20	Básica
438	Epigenetic regulation of proinflammatory markers in a glial cell model of spinocerebellar ataxia type 7	Oral	Nanahuatzin	11:00 - 11:15	Jueves 20	Básica
422	Deregulated microRNAs in a SCA7 glial cell model.	Poster	3	11:10 - 11:20	Miércoles 19	Básica
810	Analysis of Relative Telomere Length in Mexican Patients with Myotonic Dystrophy Type 1	Poster	3	11:10 - 11:20	Jueves 20	Básica
745	CANNABIDIOL INDUCES ANTI-ALLODINIC AND ANTHYPERALGESIC EFFECT VIA DOPAMINE D2/D3-NFKB-CYTOKINES RECEPTORS IN MALE HEMIPARKINSONIAN RATS	Poster	7	11:10 - 11:20	Jueves 20	Básica
471	The evaluation of cadmium and other metals in smoking patients with different joint damage	Poster	11	11:10 - 11:20	Miércoles 19	Básica
540	The impact of microbial pyruvate dehydrogenase alpha subunit on acetate levels in fecal samples from patients with gout and asymptomatic hyperuricemia.	Oral	Nanahuatzin	11:15 - 11:30	Miercoles 19	Básica
806	PROTEOMIC ANALYSIS OF SPINAL CORD INJURY AFTER TREATMENT WITH CEMENTUM-BINDING PROTEIN-DERIVED PEPTIDE (HACD1/CAP)	Oral	Temazcal 3-4	11:15 - 11:30	MIERCOLES 19	Básica
689	Poly (gallic acid) (PGAL) mitigates monosodium urate crystal-induced inflammatory damage in a cell-based gout model	Oral	Aula 1 enseñanza	11:15 - 11:30	MIERCOLES 19	Básica
528	Anti-inflammatory activity of beta-sitosterol evaluated in mice.	Oral	Nanahuatzin	11:15 - 11:30	Jueves 20	Básica
528	Anti-inflammatory activity of beta-sitosterol evaluated in mice.	Oral	Nanahuatzin	11:15 - 11:30	Jueves 20	Básica
439	antidyskinetic effect of the H ₃ agonist immepip is accompanied by a reduction in thalamic GABA levels in hemiparkinsonian rats chronically treated with L-DOPA	Poster	3	11:20 - 11:30	Miércoles 19	Básica
426	Role of PKC in the fibrosis of a Hypertrophic scar in Hypertrophic human myofibroblast	Poster	3	11:20 - 11:30	Jueves 20	Básica
623	Effect of Copper Histidinate on the Stimulation of Antioxidant Enzymes Associated with Neurodegeneration	Poster	7	11:20 - 11:30	Jueves 20	Básica
761	Development and characterization of a nanocomposite membrane with potential properties to promote the formation of articular cartilage neotissue	Poster	11	11:20 - 11:30	Miércoles 19	Básica
520	Effect of (-)-Epicatechin on Pax-7/Myogenesis in a Murine Model of Muscular Dystrophy	Poster	3	11:30 - 11:40	Miércoles 19	Básica
417	Synthesis and characterization of beta-sitosterol liposomal nanoparticles: initial approach	Poster	3	11:30 - 11:40	Jueves 20	Básica
805	Electrical activity of the external globus pallidus during generalized tonic-clonic epileptic seizures	Poster	7	11:30 - 11:40	Jueves 20	Básica
534	Regulation of atrogene expression by miRNA-411-5p in a dexamethasone-induced atrophy model in C2C12 cells.	Poster	11	11:30 - 11:40	Miércoles 19	Básica
457	Tissue-resident macrophages regulate the infiltration of inflammatory cells and blastema formation during ear-hole regeneration of early postnatal mice.	Oral	Temazcal 3-4	11:30 - 11:45	MIERCOLES 19	Básica
466	Effect of the Th2 immune response on excisional wound repair and the wound bed microbiota.	Poster	3	11:40 - 11:50	Miércoles 19	Básica

444	In vitro characterization of the effect of Betanin on the myogenic commitment of C2C12 myoblasts	Poster	3	11:40 - 11:50	Jueves 20	Básica
412	Identification of changes in gene expression profiles induced by acupuncture treatment in postmenopausal women with osteoporosis and osteoarthritis. An in-silico analysis.	Poster	7	11:40 - 11:50	Jueves 20	Básica
470	Effect of Th2 polarization on tolerance to syngeneic and allogeneic skin transplantation in a murine model.	Poster	11	11:40 - 11:50	Miércoles 19	Básica
495	OVERLIFE OF BIOLOGIC AND SYNTHETIC TARGETED DISEASE-MODIFYING ANTIRHEUMATIC DRUGS IN PATIENTS WITH INFLAMMATORY ARTHRITIS: DATA FROM FIVE LATIN AMERICAN COUNTRIES.	Poster	12	11:40 - 11:50	Jueves 20	Básica
441	Alterations of histone H3 lysine 27 methylation in severe burn and sepsis patients	Oral	Temazcal 3-4	11:45 - 12:00	MIERCOLES 19	Básica
494	Analysis of the Role of ABCG2 in Kidney Cell Activation by Monosodium Urate (MSU) Crystals through Transfection of a Specific sgRNA Using the CRISPR-Cas9 Technique	Poster	3	11:50 - 12:00	Miércoles 19	Básica
421	Influence of functional variants of the XDH gene on serum urate levels and the risk of gout	Poster	3	11:50 - 12:00	Jueves 20	Básica
416	Dystroglycan depletion reveals miR690-RanBP3L as a key regulator of muscle differentiation	Poster	7	11:50 - 12:00	Jueves 20	Básica
788	Evaluation of an amine-catalyzed copolymer scaffold for the culture of atrial chondrocytes with potential for atrial tissue engineering.	Poster	11	11:50 - 12:00	Miércoles 19	Básica
543	Análisis de la Disregulación Transcripcional de la Ataxia Espinocerebelosa Tipo 7 en un Modelo Humano In Vitro del Sistema Nervioso Central	Oral	Nanahuatzin	14:00 -14:15	MIERCOLES 19	Básica
488	Network Pharmacology and Machine-Learning in the Identification of Senotherapeutics	Oral	Nanahuatzin	14:15 - 14:30	MIERCOLES 19	Básica
637	Evaluation of the modulating effect of a medical grade viscoelastic supplement (INR-20) on wound healing in ocular surgical procedures	Oral	Temazcal 3-4	14:30 - 14:45	MIERCOLES 19	Básica
774	BETA CATENIN EXPRESSION IN THE SKIN OF MURINE MODEL WITH A THIRD- DEGREE BURN	Oral	Temazcal 3-4	14:45 - 15:00	MIERCOLES 19	Básica
