WELCOME TO THE

X INTERNATIONAL CONGRESS OF REHABILITATION RESEARCH

NOVEMBER 16 - 24, 2023

In the year 2001, the Instituto Nacional de Rehabilitación (National Institute for Rehabilitation), sought to stimulate the development of scientific research and technology in the field of disability rehabilitation in México. Accordingly, it organized the 1st Annual Research Meeting, an event that was celebrated until its tenth edition in 2010, when it evolved into the INRLGII’s yearly international congress of rehabilitation research.

Our objective has been to consolidate this event nationally and internationally with distinguished multidisciplinary working groups in order to increase its academic and scientific qualities by offering new alternatives to solve national health problems related to rehabilitation research, as well as to take on cutting edge topics offered by all clinical and research areas of the INRLGII that may allow both national and international researchers reach out and extend the scope of their findings in rehabilitation.

In this X International Congress of Research in Rehabilitation, under the theme: "Research and Care for the Prevention of Disability in the Elderly", we will focus in a special way on aging, which every day has more relevance in the general population, in an academic context that focuses on research in care and prevention of disability in the elderly.

A cordial invitation has been extended to the Instituto Nacional de Geriatría (National Institute for Geriatrics) and the Instituto Nacional de Medicina Genómica (National Institute for Genomic Medicine ) to participate in this year’s edition due to the relevance of their research in the field.

In light of the current health emergency for COVID-19, the INRLGII will assure the necessary precautions to welcome the entire scientific community and health professionals to safely participate in this year’s great event in person or remotely.

We cordially invite you to participate in the X International Congress of Rehabilitation Research that this year offers a variety of precongress courses, as well as keynote addresses, oral presentations, poster sessions, simultaneous simposia, and round tables, aside from assorted of cultural activities.

Welcome to you all!!!

Sincerely, The Organizing Committee

WE ARE ALL THE INRLGII
